

## PRISMJET 80/20 ONE WAY VIEW PERFORATED WINDOW VINYL TECHNICAL DATA SHEET

*PrismJET 80/20 One Way View* is a 6 mil, calendered printable vinyl with 80/20 perforation pattern for one-way-view commercial storefront graphics. The 'one way view' effect is created by the perforated face film. The vinyl is opaque when viewed from the printed side and slightly translucent when viewed from the reverse side. The 80/20 perforation pattern means 80% of the face film is retained. This enhances image quality and opacity and provides the most effective print surface of any one-way view perforated film.

However, it reduces visibility from the reverse side relative to 50/50 film. Therefore 80/20 film is not approved for use on windows of commercial or personal motor vehicles.

*PrismJET 80/20 One Way View* has a clear removable acrylic pressure sensitive adhesive laminated to a 90# layflat liner.

FILM	
Face Film	Polymeric Calendered
Film Finish	Matte
Film Thickness	6.5 mil
ADHESIVE	
Adhesive Type	Removable Polyacrylate Acrylic
Adhesive Thickness	0.8-1.0 / 20 - 25 µm
Adhesive Color	Clear
LINER	
Liner Weight	90#
Liner Type	White PE Coated
PERFORMANCE GUIDANCE	
Shelf Life	1 Year
Storage Temp/Rel. Humidity	70°F / 50%
Outdoor Durability	up to 1 year

PrismJET 50/50 One Way View is available in sizes of 38-inch and 48-inch by 40-yard rolls.

Compatible with ORAGUARD 290F and PrismJET 231 overlamine film. For best results for optical clarity, 290F or a comparable, optically clear cast film is recommended.
